

DIGITAL SUMMER TERM 2020

Summary

August 2020

Univ.-Prof. Dr.-Ing. Katharina Klemt-Albert

Director

Institut of Construction Management and Digital Engineering

Leibniz University Hannover

DEVELOPMENT

Development of **C-Blended-Learning**

- Synchronized live-online lectures & tutorials
- Self-study with documents on an online learning platform
- Interaction through digital tools
- Online transformation of content & methodology
- Focus on interaction

CONVERSION

Different modules with 40 - 170 students

Online development of digital panel paintings

Online guest lectures by industry partners

Interaction through

- Digital Avatars
- Live-Voting
- Q&A sessions via the chat
- Break-Out-Rooms

FEEDBACK

Promising implementation of C-Blended-Learning

Higher concentration during the events

Stronger motivation (hardly any fluctuation over the semester)

(Almost) trouble-free technical implementation

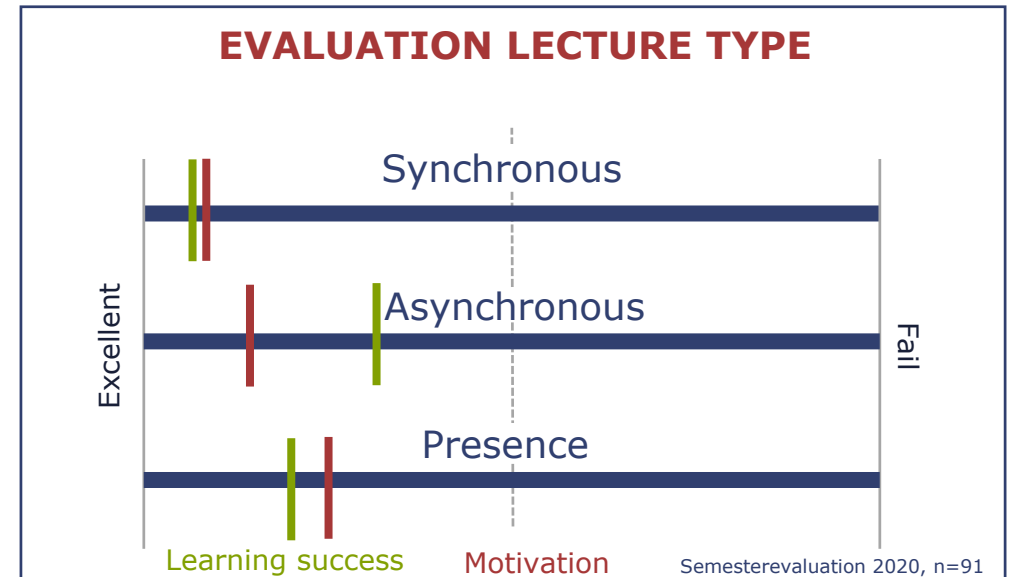

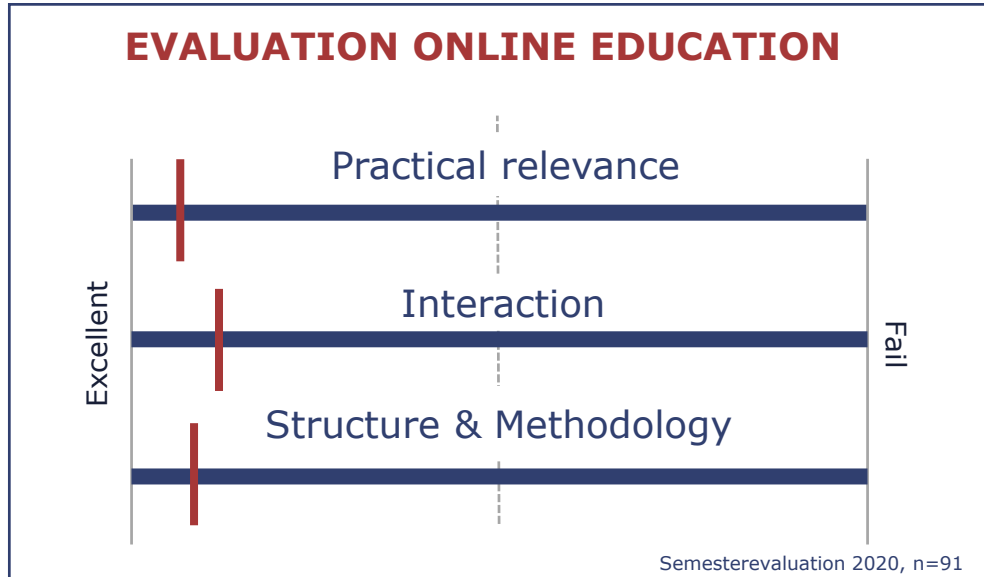

Virtual Classroom
with Avatars

Online-
lecture

EVALUATION OF THE SEMESTER

The effort was worthwhile

"[...] especially good was the interactive work with the chat and the polls."

"I could follow better than in presence, as I was not distracted."

"Should be the inspiration for all modules."

"By far the best module."

"[...]very good lecture, very motivated professor."

¹ The findings come from the surveys conducted among 91 students at the ICoM in SoSe2020

CONCLUSIONS FROM THE 1ST ONLINE SEMESTER

Skills development through C-Blended-Learning

Feedback on the modules at the ICoM¹

Feedback on the online semester at ICoM¹

C-Blended-Learning is very well suited to meet the teaching and learning objectives in online format.

According to the students' opinions, synchronous teaching encourages personal initiative, independence & time management.¹

75% of the students have adequate technical equipment, the other 25% received equipment on loan from the university.²

Better exam results by using C-Blended-Learning (and less distraction 😊)

¹ The findings come from the surveys conducted among 91 students at the ICoM in SoSe2020

² Results from the evaluations carried out by the student council in SoSe2020 (participants: 52 persons)
